

Maintenance of GN as a key component in NSDI

Topics for the discussion

- How to increase an efficiency validating GN updates amongst authorities and offering the approved (official) content of GNs?
- What are the practical use cases for GNs in NSDI (where are the benefits of a proper GN content)?
- How the GN data and e-services to be adopted in “machine readable” formats and AI friendly technologies?

Work organisation of the Baltic Division

Topics for the discussion

- What are the common trends on GN content and maintenance procedures for the Baltic division (ref. to UNGEGN work)?
- Sharing the national „best practice“: guidelines, specifications, methodologies, etc.
- Future events
- Response to the UNGEGN global initiatives
- Nomination of chair and vice-chair
